FOR PRESIDENT IN 1888, JAMES G. BLAINE, OF MAINE.

Subject to the decision of the Republican National Convention.

"We always have the American flag above us and not below us."—James G. Blaine.

PULL TOGETHER.

It is high time that petty jealousies should be buried and harmonious action taken by the people of Nevada in representing the agricultural interests of this State. If we ever hope to populate our vast domain we must work together. If more favored localities are the first sought after by incoming settlers, it is the height of folly for the papers or people to discourage them by misrepresentations or by throwing cold water on such a movement. We are all interested in the welfare of Nevada, and no matter in what particular locality the State may receive accessions of wealth and population, the effect is felt by the entire people. Every portion of our State can boast of a splendid climate and productive soil, and in time it will receive its full share of attention. Booms like an epidemic must first make a start, and then gradually spread over the surrounding country. Every locality of any promise in Nevada should be kept constantly before the people, and not built up at the expense of some other section, equally as good or better. If some of the papers in this State would take more interest in representing the advantages of the locality in which they exist, and devote less space to criticising efforts that are being made elsewhere to show the country up, much good might follow. California, instead of ridiculing the efforts made by the people in the southern portion of that State, encouraged them, and it was not long until the effect of the effort was felt all over the State. It did not stop there. Oregon and Washington Territory put their shoulder to the wheel, and received their full share of the prosperity that followed. If one county, or one valley or town is to antagonize another, the people of this State can never hope to see any activity in the shape of real estate transfers, or our population increased. Now is the time for united action, and without a dissenting voice, the people should join in the grand object and bring Nevada to the front.

France and Germany are again furnishing food for war correspondents. Notwithstanding announcements now and then to the effect that there is no trouble to be apprehended, both powers are watching each other, fully prepared to engage in the terrible struggle that must sooner or later take place between them. Fortifications are being erected at every strategic point, under various pretexts, that show conclusively that it is only a question of time when the tocsin of war will be sounded. Any cause will suffice to precipitate trouble. Neither power is afraid, but both want the other to offer a pretext.

Some of the Democratic papers state that many Grand Army men threaten to sever their connection with that organization if the abuse of Cleveland is not stopped. If there is a member of that organization who upholds the President in his attempt to return the Rebel flag, he ought to be kicked out of it.

The two Emperors, William and Francis Joseph, have met, embraced and parted. It is good policy on the part of William to treat the Emperor of Austria considerably, as he might become a troublesome ally in case of war between Germany and France. European diplomacy is rather smooth.

Reno is losing valuable time in not making a public park. The town could make no better investment than to have two or three. Suppose they had been commenced five or ten years ago. Just imagine what we could have had. It is a shame to lose the next five or ten years in the same way.

The official majority of Buckner over Bradley, in ninety-nine counties heard from, is 17,039. The Democrats have nothing to crow over. Mr. Cleveland will find that the Democratic loss will not be confined to the Bourbon State.

All the Union soldiers who were made prisoners during the war, want a pension of \$2 per day while in prison. This will give Mr. Cleveland another opportunity for a veto.

The Commission has the Southern Pacific railway magnates on the gridiron. The whole country relishes the situation.

NEVADA ABOVE ALL.

The Esmeralda News pertinently observes:

The mortality roll in the Eastern cities has been greatly increased by the hot wave that has passed over portions of the country. By the intensity of the heat numerous deaths have been recorded, sun-strokes being the order of the day in Chicago, St. Louis, New York and other large centers of the East. In portions of California the heat has shriveled and dried the fruit hanging on the trees, while here in Nevada the mercury has been about the same as in the East and in California, and yet there has been no complaint whatever. Sun-stroke is as rare in Nevada as an honest Legislature is; there has not been a case of sun-stroke this year, notwithstanding there has been hundreds of men exposed to the sun by out-door employment. The nights in the East are spent in a sort of a tormenting way, from which there is no relief; the close-fitting, murky atmosphere lingers on and around miserable humanity, that toss about on sleepless couches, and awakes, weakened and fatigued, to face the blazing heat of another day. The Winters are excessively cold, causing as much distress as do the Summers, while here in Nevada the nights are cool, permitting a cover of at least one pair of blankets. Nevada, above all, is God's own country, its inhabitants are strangers to cyclones, biting frosts and intense heat; they never experience the climatic disturbance so familiar to the East. How soon will the Eastern people learn of our hospitable climate, delightful scenery and the immensity of our resources? When will they learn that this is the State for them to obtain comfortable homes, which, by the excellence of our climate, are proof against the hostility of such weather as experienced in the Eastern States?

IRRIGATION.

The Carson Tribune says: It is about time that the ranchers of Carson and other valleys awake to a realization of the fact that investing money in boring for water would likely turn out the most profitable investment possible. In Carson valley especially is the greatest need for endeavoring to find artesian water, for the reason that the Winters vary so much, and the snowfall is not to be depended upon for furnishing a sufficient water supply. At this time the grain all through the valley is literally burned up, cannot ripen and must be used for cattle feed. When snow falls early in the season a good Summer flow may be expected, but whenever the contrary occurs matters are as now, for late snow does not pack, but goes off in the first warm spell. There is no reason why water should not be procurable by using the proper means, all along the rising ground of Carson Valley, and the farmers are their own worst enemies in not combining together and ascertaining whether or not artesian wells would prove successful. It is owing to petty jealousies and lack of unanimity in action that Carson City has not at the present time a population double what it is, and from all reports the same occurs in the valleys. This is a good time to refer to irrigation affairs, and it is to be hoped that the Tribune's readers in Douglas county will consider the matter and act thereon, for whatever helps Douglas county aids the prosperity of the whole State, and a stir among the dry bones in that part of the State may cause a rattling all over Western Nevada.

A Sheridan Boom.

CHICAGO, August 8.—The News' Washington special of August 7th says: An intimate friend of ex-Attorney-General Brewster, who recently conversed with him on political affairs, says that during the conversation Mr. Brewster expressed his judgment on the Republican Presidential candidates in a generous and discriminating manner. He believes, however, that the Republican party must nominate a candidate who represents the heart and conscience of the nation, or it would not win. He had very little faith in brass bands or conventions, but profound faith in the people. If they could look at events without the glamour of conventions the nomination of Sheridan would be the incarnation of the genius and force of Republican sentiment.

It would be the taking of the last of our immortal heroes and placing him in the pantheon beside Washington, Jackson, Harrison, Taylor and Grant. Yet he did not see the influence that would nominate Sheridan. Profoundly admiring him as a friend and a hero, he did not think the party would be brave enough to nominate him. Politicians would never nominate others than politicians when there was the least chance of winning. He had great respect and sympathy for the labor movement, for the cause it championed, although he had seen little cause to admire the wisdom of the labor leaders. There was more to be found for natural advantage within the scope and purposes of the Republican party than in any other available political party.

Henry George's Party.

NEW YORK, August 6.—In yesterday's Standard Henry George says that it is necessary that the platform to be adopted by the United Labor Party Convention, which is to meet at Syracuse on the 17th, firmly and clearly define the position of the party with relation to socialism. This is rendered necessary by the organized endeavor of the State, or German socialists, to impress their peculiar views upon the party, an endeavor that has become so notorious that any disposition to evade the issue of whether or not the United Labor party indorses their views would give its enemies a serious pretext to make the charge that it does.

Irish Riots.

BELFAST August 7.—A party of Nationalists, members of the Foresters, went to Portrush to-day on two special trains. They were met at Portrush station by a crowd of Orangemen and a sharp fight ensued, bottles and stones being used as missiles. All of the decent inhabitants and the English and American tourists who happened to be in town took refuge in their houses. The disturbance was finally quelled by the police. While returning to Belfast the Nationalists were stoned all along the line by the Orangemen, who had been informed of the riot at Portrush. Nearly all the windows of the trains were broken. The Nationalists replied with bottles and pistols. A youth, who was standing on the bridge at Ballymoney station when the trains passed, was shot and has since died. A Presbyterian minister and a youth were wounded at Ballymoney. When the trains arrived at Belfast there was further trouble, but the police soon restored order.

Mr. Moore Will Not Shoot.

WOODLAND, August 7.—Some have thought that when Robert Moore came over here there would be bloodshed. The Chronicle's correspondent had an interview with him and he disclaims emphatically any idea of violence. He had gone out to see his mother to-day and says he will use all his persuasive powers to prevent the marriage between her and Black, but if that fails he will quietly retire. He thinks if they marry there will be a row between them in less than six months. Moore is a thorough gentleman and has never done anything that would give any one a reason to think he would have any personal difficulty with Black, as some correspondents have stated. The final outcome will be better determined after Judge Garoutte renders his decision in the injunction case.

A Mining Excitement.

SEATTLE, August 7.—It is reported that gold has been discovered at Black River Junction, ten miles from here, by men who claim to be old miners from California. There is considerable excitement here. Numbers of people visited the place to-day, and thirty or forty claims were staked out and posted. The finders claim to have had the rock assayed and that it assays from \$16 to \$40 per ton in gold and \$4 in silver. The color was found on Jorgensen's farm. Three adjoining farms are now overrun with prospectors. A party of miners will start a tunnel to-morrow morning.

A placer mine was also discovered a day or two ago on Vason Island, and claims have been filed with the officials here and work has commenced.

The Kern County Murder.

BAKERSFIELD, August 6.—The Sheriff arrived from New Mexico this morning, having in custody Thurston and Theodore Lee, brothers, charged with the murder of John Smith last January, whose body was found partially buried beneath some rocks with his skull fractured, near White Wolfe Springs in this county, the particulars of which were published in the Chronicle at the time. The statements made by the men in detailing their movements after leaving Bakersfield in company with Smith do not agree. The examination will take place in a few days. A reward of \$300 has been offered by Governor Bartlett for the arrest and conviction of Smith's murderers. The Lee brothers have relatives living in Traver, Tulare county.

Preller's Murderer.

ST. LOUIS, August 7.—The respite granted Maxwell by the United States Supreme Court has caused much indignation among law-abiding people. It is held that the prisoner had a fair trial and was convicted of a most heinous offense. The case was passed upon by the highest State Court and the judgment of the lower Court was affirmed. Now, upon the plea that constitutional points are involved, the attorneys are tricky enough to secure a writ of error from a member of the United States Supreme Court. Maxwell feels very much improved at present. An attorney of distinction said last evening that the carrying of the case to the Federal Supreme Court would simply carry him a little longer; that there is no possibility of really picking a flaw in the case.

A Reminder of An Old Murder.

ARBuckle (Colusa county), August 6.—Yesterday a son of W. L. Cottle, four miles south of Arbuckle, while hunting rabbits in the thick brush, found the skull and the large bones of a human skeleton. The skull was fractured in two places by a sharp instrument, probably an ax. The skull appears to be that of a negro. Several years ago a negro who was cutting wood in the vicinity drew \$90 one night and was never seen again.

Get the money out of the Treasury and give it a chance to circulate in the channels of trade.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21—aw 1-1v

BREVITIES.

Tons of hay are coming into town.

The Alta mill will soon be completed. Reno is growing and will continue to grow.

The freight trains were all behind time yesterday.

Everybody was well satisfied with the concert Monday night.

Nevada climate will sell at a high price within five years.

Tom Hymers' old stable was wiped out of existence yesterday.

Nevada people should send their children to Nevada schools.

Harvesting will soon be the order of the day around Fort Bidwell.

Verdi is a booming little town. There are lots of good people there.

Our Commissioners are doing good work for the town and county.

If some man will start a candle factory here, he will amass a fortune.

Standard Nerve Food a healthful drink. Geo. Becker, agent, Reno, Nevada.

Go to Osburn & Shoemaker's and try a glass of "Moxie" and soda, the nerve food.

There is an immense amount of freight passing both ways over the C. P. road.

The water in the Carson river is lower than ever before known at this season.

Thousands of acres of new land have been put under cultivation in Nevada this year.

The first story of Thompson's new building is up and the next one following rapidly.

Reno may well be proud of her young Nevada Scatoli and its wonderful male alto singer.

A tank is to be built on the side of Mt. Davidson that will hold 80,000 gallons of water.

It is estimated that there were 500 people in attendance at the Opera House on Monday night.

Monday morning about thirty Chinamen were shipped to Moran, to work on the N. & C. R. R.

The concert established one fact, and that is that home production is equal to the imported article.

The weather still continues warm, and the indications are that the dry spell is of long duration.

Those who have been in attendance at Court from Spanish Spring Valley have departed for home.

Those who came down from Virginia to attend the concert Monday evening returned home yesterday.

Mr. W. Blanchard, a farmer near Glendale, has been offered \$8,000 for his place, which he refused.

The citizens of Golconda have voted to levy a special tax, for the purpose of building a new school house.

Work has been resumed on Powning's building on Virginia street, and will be pushed until the structure is up.

The Mormons are afraid the Gentiles want to steal John Taylor's head and have placed a guard over his tomb.

It is reported that a portion of the Inyo marble quarry, has been sold to Philadelphia parties for a large sum.

Charles E. McDougall, a former resident of the Comstock, was murdered in Denver, Col., on the night of August 1st.

When you build have something modern constructed. Reno has outgrown the style of houses built in early days.

The old building on Plaza street is nearly demolished, and work on the new one to take its place will soon commence.

Just received at H. C. Davis' Lumber Yard, a carload of Santa Cruz finishing lime and Wetherspoon New York Plaster.

Effie Butler was arrested Monday night for drunkenness. In the Justice Court yesterday she pleaded guilty and was fined \$10.

Mark Averill, local reporter of the Evening Report, was taken suddenly ill Sunday afternoon. Rush of blood to the head was the cause.

Our Washoe farmers should make an effort to capture nearly all the prizes at the Ormsby District Fair. They can take the cake if they will try.

Clean off the sagebrush from the surrounding hills. Get water out of the ditches, and make Reno outskirts prettier than those around Benicia.

The outlook for the State Fair next month is better than for any Fair ever held. The ten days will be days of wonder, of pleasure and of profit.

All the Carson people, who attend the concert to be given by Miss Finlayson at that place to-morrow night, will listen to a musical treat.

It is reported that the plans for quite a number of new buildings are being considered, and that Reno will improve very much before snow flies.

Judge Bigelow went to Spanish Spring Valley yesterday morning, to view the Truckee Drain Ditch property, and he will hear the arguments in the case to-day.

The Bullion Mining Company is sinking an air shaft northwest of the hoisting works. The shaft is to be 500 feet deep, and the depth now attained is 150 feet.

White Carson is making one step forward Reno will make ten. We should be glad to announce, at any time, that while Reno was making the ten, Carson was only one behind.

The annual picnic of the Comstock Miners' Union will take place on Sunday, September 4. It will wind up the picnic season and will be the boss for the year in that line.

Miss Emma Gibbs will open her fancy goods store on the west side of Virginia street, first door south of C. S. Martin's real estate office, on Thursday morning, where she will keep a full line of fancy goods, art embroidery materials, etc.

PERSONAL.

J. A. Stevens, of Virginia, is quite ill.

Ed. Harris left for Washoe yesterday morning.

John Mackay arrived in New York yesterday.

S. Arnstein, of Wadsworth, came in last night.

Dick Jose will depart for the East on the 15th inst.

Dr. Bergstein returned from Lake Tahoe last night.

Charley Leeper and family returned from Taylorville, Sunday.

Miss Dora Clark, of Dayton, is visiting Miss Mollie Roff, of Reno.

W. C. Orr, brother of Mrs. Johnson, deceased, arrived here last night.

Governor Stevenson and wife passed through to San Francisco last night.

Albert Keizke and Wm. Shaffer, of Boon, Cal., passed through to Carson yesterday.

Senator Wm. Stewart, of San Francisco, passed through to California Monday night.

Hon. John W. Powell, of Elko county, passed through Reno yesterday, en route to Tascara.

Thomas H. Crane, ex-County Clerk of Storey county, came down from Virginia Monday.

Miss Mamie Gilson, of Carson, is visiting Reno, and is the guest of Miss Lalla Remington.

Judge Bonfield, of Winnemucca, was a passenger for San Francisco on the overland last night.

Judge Rising, accompanied by his daughters Miss Susie and Nellie, is sojourning at Lake Tahoe.

The family of Mr. James A. Dealy will leave for San Francisco on Thursday to reside permanently.

Doctor Greenlaw has returned from Carson and can be found at his rooms over the JOURNAL building.

H. C. Gorham, of Gold Hill, and Mrs. Lon Hamilton and daughter passed through to the Bay last night.

State Controller Halleck came down from Carson last night and took the west-bound train for Rubicon Springs.

Patrick Morgan, committed from Storey county, April 23, 1877, died at the Asylum August 8th at 6:15 p. m., of paralysis.

Mrs. N. J. Roff returned from Newcastle yesterday, where she has been attending her mother and sister, who were seriously ill.

W. W. Scott, wife and child came in from Fish Springs to Reno, Monday, on a visit. Mr. Scott states that his sheep in that section are looking well.

Miss Mollie Harris, sister of Thomas Crane, ex-County Clerk of Storey county, died yesterday in San Francisco, whither she had gone in search of health.

TRY THEM AGAIN.—Now that it has been demonstrated that the Amateurs, of Carson, are not invincible, it would be in order for the Resolutes, of Virginia, to try them again. The Resolutes have battled with them twice, and suffered defeat each time. In both instances, however, they played the Amateurs upon their own ground, encouraged by their many friends. Let the Resolutes try them again, either at Reno during the Fair, or at Hawthorne, on unfamiliar ground, and see what the result will be.

THE WILLOW CREEK MINE.—A force of men are now employed at the Willow Creek mine, operated by Gov. Stevenson, and ore is being again extracted. The mill is pounding away, and the concentrators are reducing the pulp to its mineral value. The Reduction Works will soon be receiving large consignments of concentrates from this property.

ON THE RIGHT TRACK.—For a long time our officers have been on the lookout for parties who are selling liquor to Indians, and have now established the fact that Chinamen in Reno are making a livelihood in this nefarious business. After a ceaseless watch for weeks they nabbed one heavy dealer on Saturday, and will ultimately place the whole gang of them where they can do penance for their crime. The Celestial works his scheme very cunning, and it requires patience to catch him in the act. Drunken Indians are becoming a nuisance in Reno, and it is to be hoped that our officers will be able to catch every one of the miscreants connected with this dirty work.

A FALSE RUMOR.—It was rumored about town this morning that there was a change in the management of the Iowa mine and mill, Mr. Curtis being superseded by Mr. Collins of the Benton mine. A visit to the mine, however, failed to verify this rumor, as no account of the change had reached the mine. Mr. Thomas, who had charge of the mine during Mr. Curtis' absence, left last evening for San Francisco, which doubtless gave rise to the rumor. Mr. Curtis is expected to arrive in town on or about the 15th instant. So says the Evening Report.

A GOOD INVESTMENT.—All the highland in this neighborhood will produce berries of every description, and the yield per acre would be great. Some of those who are looking for good investments can find no better opening for a venture than to take hold of some of this land and go into the berry-raising business. They will have a market right at their door for all they can raise and will receive good prices for their product. This land will never be any cheaper than it is to-day, and the cost of improving it will be light.

COMMENDABLE.—A great deal of credit is due to Nasby, for the manner in which he reserved seats for the concert Monday night. Never before was the Opera House so well filled, on a similar occasion, and nearly every seat in the house was reserved. It was generally anticipated that holders of seats would experience more or less trouble, that seats would be duplicated and that dissatisfaction would follow. Not a single instance of the kind occurred, and everything went off smoothly and nice.

CONTEMPT OF COURT.—Matthew and James Calahan, farmers living a few miles south of Reno, have been arrested for an alleged violation of an injunction granted some years ago in the suit of George Smith and Michael Layon, et al. It is claimed that the Calahan boys are appropriating water that belongs to Smith and Hardin. The matter will be investigated by Judge Bigelow, in judicial chambers at 10 o'clock to-day.

A NEW ORDER.—The Central Pacific Company have issued an order compelling Indians to ride henceforth on freight instead of passenger trains. Heretofore they have rode on the platforms of passenger trains, carrying fish and other freight along with them. They have always carried the redskins free, and no doubt always will, but they must now patronize the freight trains.

THE EUREKA CON.—This old bullion producer is coming to life again, and the prospect is now favorable for a resumption of dividends. Prospecting is being done on the 300 level and it is in this section that the management hopes to make important discoveries. Eureka, like many other camps in the State, may revive and display some of its old-time activity.

THE ALTAR.—Mr. Charles A. Jones was married in Virginia City Monday evening, by Rev. Father Tobias, to Miss Mary, the eldest daughter of Justice Young, of Reno. The wedding was a quiet affair, only intimate friends of the contracting parties being present. The young couple will leave Reno in a few days on an extended tour.

FUNERAL.—A dispatch was received from a brother of Mrs. Johnstons, from Ogden, stating that he would arrive in Reno yesterday. The body has been partially embalmed and packed in ice, and the funeral will take place to-day, at 2 o'clock, from the Methodist church. All friends of the family are invited to attend.

FREIGHT.—There is a large quantity of freight reaching Reno for Virginia, Carson and points along the C. & O. road. There is a large amount consigned to Reno and places north. From this time forward the shipments will be greatly increased.

GOOD RETURNS.—The gross receipts of the Finlayson-Jose concert Monday evening aggregated \$300 50—300 tickets at 75 cents each and 169 tickets at 50 cents each. All of the expenses amounting to \$85 75, leaving \$223 75 as the net receipts.

BOUND OVER.—The Chinaman who was arrested Saturday night, for selling whisky to Indians, had a hearing before Justice Young, yesterday afternoon, and was bound over in the sum of \$500 to await the action of the Grand Jury.

NEW RAILROAD FOR NEVADA.—A syndicate has been formed to buy the California and Nevada narrow-gauge road, and will at once push it forward to Sonora, Tuolumne county, Cal. The road will not stop there, as it is to be a transcontinental line. The San Francisco Call of last Sunday says, "Their next move will be to Columbia and thence along the south fork of the Stanislaus river into the very heart of the Sierras, through which exit will be found by means of the Sonora Pass, one of the few outlets through the Sierra Nevada. The immediate destination of the road is Bodie, in Mono county, near Mono Lake. From there it will be constructed through Nevada, crossing the Carson and Colorado at Candelaria, thence across the Snake Mountains by a pass found there to an ultimate connection either with the Utah Central at Pisco or the Denver and Rio Grande at a point southwest of Salt Lake City. So many false rumors of the projected railroads have been afloat of late that there is a good deal of skepticism regarding all such statements. In this instance, however, the announcement is made on the best authority, and there is no doubt either of the intention of the company or their financial ability to construct a transcontinental road."

BRIGHT OUTLOOK FOR PROCHER.—A communication from Pioche speaks in glowing terms of the prospects of that camp. Since it has been understood that a railroad will pass through that place, property has been enhanced in value, and the people are getting ready for the grand change that is to come. Nearly all the mines in that vicinity are now being worked, and hoisting works will be erected on many of them. Many fine properties are known to exist in that district, but owing to the fact that material of every description had to be transferred many miles by freight teams, they cannot be worked profitably. Now that there is a likelihood of a railroad tapping the camp, all these properties are becoming valuable, and Pioche will see lively times again. The same can be said of other mining districts in Southern Nevada, and the prospect is favorable for general activity in that portion of the State.

WADSWORTH.—Mr. Stewart, of Wadsworth, is in Reno on business and reports everything around that place looking well. The crops have been good, and stock of every description is looking well. Some anxiety is felt by the settlers regarding their ranches, the new survey bringing them in Indian lands. Some action will no doubt be taken this winter to have this troublesome question settled. Memoirs have been sent to Congress in the past, praying that two townships be set off in that locality, and if this move can be brought about no trouble will follow. It may not be a difficult matter to gain the consent of the Indians to this proposition. The survey is not yet completed, and but little interest is manifested in the side line that is now being run as it does not intrude upon the ranchers.

HEALTHY RENO.—Now, here's an item the Reno papers can copy with much gusto. It is founded upon information given us by a prominent physician of that town: There has not been a death in Reno for two months, there was a funeral there Sunday, but the corpse was imported from Virginia City, where they are daily produced. Now, get up and say we can't tell the truth.—Evening Report.

This is something like it. Just continue on this line, and you will never be arraigned by the people of Reno for misrepresentation.

SOLD OUT.—All the live stock and implements belonging to the Sierra Valley & Mohawk R. R. Company have been sold by the Sheriff of Plumas county to satisfy a judgement obtained by Miller, Huntington, Hopkins, and others. The road bed and rolling stock are also advertised for sale.

SOME GOOD CROPS.—The Silver State says James Ritchie says some farmers have some very fine crops in Paradise Valley, and the yield per acre will be up to the average of last year. James Byrnes has about 230 acres of grain that is extra fine, and some other farmers have good crops.

What Is It That produces that beautifully soft complexion and leaves no trace of its application or injurious effects? Wisdom's Robotine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warmwater, harmless and matchless. S. J. HODGKINSON & CO., my 24 lyr Agents Va. St., Reno, Nev.
